Dear Ms. Hartzell and Mr. Jankauskas:

SUBJECT: BROOKHAVEN NATIONAL LABORATORY INTERAGENCY AGREEMENT:
PETITION FOR CLOSURE – OPERABLE UNIT III (OU III) NORTH STREET
GROUNDWATER TREATMENT SYSTEM

In accordance with the Brookhaven National Laboratory Interagency Agreement, attached is the Petition for Closure – OU III North Street Groundwater Treatment System. As outlined in the attachment, this treatment system has met the criteria established for closure in its respective Operation and Maintenance Manual. No significant rebound in Volatile Organic Compounds (VOC) concentrations has been observed since the system shutdown in August 2016, however, seven of eighteen monitoring wells are proposed for continued sampling until results are below maximum contaminant limits. Please note, sampling at the remaining eleven wells will be discontinued, the wells will be retained until characterization is completed.

If you have any questions please contact Jerry Granzen, of my staff, at (631) 344-4089.

Sincerely,

Robert P. Gordon
Site Manager
